

Table of Contents

Foundations in Immersive Learning Research and Theory

Extended Abstract—Design of Learning Content with Telepresence Robots and Virtual Agents Considering Social Presence and Embodied Interaction	1
Extended Abstract—The Impact of Guidance on Learning and Agency in a Virtual Reality Game for STEM Education	7
Extended Abstract—Stories of Peso da Régua: The Enigma of the Ancient Vines - The Co-Creation Process of an Immersive Experience in Cibricity	14
Systematic Review of NSF Virtual Reality Funded Projects: Implications for Researchers	21
Doctoral Colloquium-Student Attitudes Toward the Use of the Lightboard Technology in Immersive Educational Settings	31
Doctoral Colloquium – Students as Designers of Augmented Reality Applications: Learning Experience and Impact on Learning	38

Assessment and Evaluation (A&E)

Demonstrating Replay for Highly Scalable and Cost-Effective User Research of Virtual Reality Learning Games	44
---	----

Galleries, Libraries, Archives and Museums (GLAM)

AR and Gamification in Museum Apps: Current Challenges and Opportunities	51
Extended Abstract—Immersive Education with Historical Characters: Conversational MetaHuman Based on Large Language Model, Speech Recognition and Generation	62

Inclusion, Diversity, Equity, Access, and Social Justice (IDEAS)

Piloting a Virtual Reality Cybersecurity Game for Neurodivergent Adults: Findings from a User-Centered Formative Evaluation	67
Perceived Empowerment and Empowering Behaviors with Augmented and Virtual Reality in Transdisciplinary Research	78
Leveling the Playing Field: Amplifying Rural Student Voices in Game-Based Learning Design with a Rural User Experience (RUX) Kit	89
Extended Abstract— Implementation of an Immersive Sensory Room for Autistic Individuals: Enhancing Therapeutic and Learning Experiences through Technology	96
Doctoral Colloquium— Narrative and Soundscapes: Crafting Video Game for the Intersection of Neurodiversity, Gender and Queerness, The Things Left Behind	103
Doctoral Colloquium— Designing Inclusive Game-Based Informal-STEM Learning for Neurodiverse Middle-School Learners	110
Doctoral Colloquium— Investigating Preferred Design Elements by Autistic Individuals in an Immersive Learning Environment	117

STEM Education

Exploring Teachers' Perspectives on the Affordances and Constraints of Augmented Reality in Geometry Education	124
Design of a Culturally Situated Hybrid Immersive and Hands-On STEM Learning Environment for Middle School Students on Navajo Nation	134
Extended Abstract—An Adaptive Virtual Lab Environment for Educator-Driven Web Integration	141
Extended Abstract—Log Data as a Window into Learning: Embodied Interactions in a Virtual Reality Simulation	147
Exploring the Application of Virtual Reality in Mechanical Engineering Education	154
Extended Abstract—Immersive Education: Utilizing the Potential of Immersive Technologies in Computer Science Higher Education	162
Doctoral Colloquium—A Comparison of Teachers and Students in Categorizing and Representing Geometric Conjectures Using AR Simulations	168

Language, Culture and Heritage (LCH)

Exploring the Impact of Virtual Reality on Students' Perceptions and Competency in Multimodal Communication	176
The Benefits and Impact of Introducing a Metaverse World Creation Package in International Virtual Exchange	186
Cross-Cultural Learning to Promote Global Citizenship Using Immersive Technology: A Systematic Literature Review	198
Virtu-ELLE Vocabulary: Evaluating Three Second Language Acquisition VR Games	209
Extended Abstract—iReinventing Cultural Roots: A Booklet Inspired by the Asian Minor Catastrophe	219
Extended Abstract—Using Augmented Reality to Teach the History of Classical Athens: A Presentation of the Methodology and Preliminary Findings	225
Extended Abstract—Cultural Learning Through Spherical Video-Based Virtual Reality: Facilitating Recognition, Reflection, and Identity Development	233

Workforce Development & Industry Training (WDIT)

Practicing of Home Nursing Activities in a VR Simulation	240
--	-----

Self and Co-regulated Learning with Immersive Learning Environments (SCILE)

XR Pedagogical Framework: Leveraging Augmented Reality for Effective Learning in Industrial Training Using CDIO	251
---	-----

Special Track 3: Immersive Technologies, XR and AI for Education (XRAI4Edu)

Students as Co-Creators of a Classroom in an Immersive Web Environment	261
Pedagogical Extension of the Smart Object Concept for Embodied Conversational Agents	272
VersOnLIFE: an Inventive-Connective Methodology for OnLIFE Education in Metaverses	280

Foundations in Immersive Learning Research and Theory

Doctoral Colloquium—Immersive, Inventive and Gamified Narratives: A Pathway to Teacher Training in the Digital Age

291
