## Foundations in Immersive Learning Research and Theory

---

Reconstructing the Ideas of Students of Pedagogical Departments Regarding the Concept of Speed and Rectilinear Smooth Motion	1
Co-Creating Collaborative Learning Spaces in the Metaverse To Foster Online Teamwork and Belonging	7
The ACATAR—Turning Academic Success into a Fun Adventure (Update 2025)	12
Comparison of Standard 2D and Virtual Reality-based Teaching of Moral Dilemmas: the Case of the Trolley Problem	16
Building a Sustainable Immersive Technology Ecosystem - A Statewide Model for Higher Education: Leveraging Immersive Technology for Educational Outcomes and Workforce Development	19
Towards a Transformative Framework for AR Learning and Instruction Through the Lenses of Research and Practice: An Interdisciplinary Community Workshop	24
More Than a Headset: Building XR Literacy in Higher Education	29
Simulating Classroom Chaos: The Design of a Social VR Environment for Teacher Education	33
Exploring Embodied Conversational Agents in Extended Reality for Language Learning	38
Charting the Future of XR in the European Union: Trends, Research Priorities, and Collaborative Opportunities	43
AI <sup>2</sup> LM-HE Panel Session: Advancing Interactive & Immersive Learning Media in Higher Education – Insights from a Systematic Expert Review	45
XR@UM: Building a Community of Practice in Immersive Learning at the University of Montana	48
Immersive Mindfulness: Adolescents' Meditation Experiences in Maloka VR	53
Immersive Learning with Augmented and Virtual Reality: Hands-On Workshop with ARTutor and VR Environments	57

## Assessment and Evaluation (A&E)

---

Building an XR Collaborative: Strategies for Sustainable Immersive Learning Support at an R-1 Institution	62
---	----

## Galleries, Libraries, Archives and Museums (GLAM)

---

From Physical to Virtual: Redefining Scientific Events with Immersive Technologies	68
--	----

## Inclusion, Diversity, Equity, Access, and Social Justice (IDEAS)

---

Enhancing Empathy in Virtual Reality: Software Classification	74
Uncanny Valley, Neurodiversity and Virtual Avatars	79

## **STEM Education**

---

Developing Virtual Simulation of Optic Lab in Physics Education Using Virtual Reality	83
Implementing XR-Based Virtual Science Lab for Inquiry-Based Learning	89
Identifying Teacher Needs and Requirements for XR Integration in Secondary Technical and Vocational Education	94
MetaIfes: An Immersive Learning Solution for Technical and Higher Education Courses	99

## **Language, Culture and Heritage (LCH)**

---

Unlocking the Potential of the Metaverse: A Guide for Designing Educational Escape Rooms in Frame VR	103
--	-----

## **Medical & Healthcare Education (MHE)**

---

Virtual Reality Training Simulators as a Learning Method for Medical Equipment: The IV Infusion Pump	107
Development of ARTutor Prototype for Teaching Upper Limb Anatomy to Occupational Therapy Students	112
Integrating Procedural Information into XR Simulation for Basic Life Support Training	118
Collaborative Simulation Training in Extended Reality with High-Fidelity Patient Simulator for Emergency Contexts	123

## **Nature & Environmental Sciences (NES)**

---

Exploring Data-Driven Approaches to Visualize Learners' Engagement Profile in Immersive Gameful Experiences	128
How Healthy Are Our Streams and River? - Initial Headset VR Prototype Functionality with GIS	134
RedCAP + Unity = Immersive Data Collection. Developing a Stealth Spatial Watershed Map Learning Task in VR	139
Special Session—What Needs to Change in Research on XR in Environmental Education? An Interdisciplinary Panel and Community Discussion Session	144

## **Workforce Development & Industry Training (WDIT)**

---

Virtual Interaction on Concept Learning for Construction Safety Training	148
--	-----

## **Self and Co-regulated Learning with Immersive Learning Environments (SCILE)**

---

Social VR in Education: Transforming Learning Through Immersive Collaboration	154
---	-----

## **Special Track 1: Immersive learning across Latin America: state of research, use cases and projects (LATAM)**

---

Educational Virtual Tours: Creating Immersive and Interactive Tours to Support the Teaching and Learning Process	158
Developing Immersive Experiential Learning Experiences: Assessing Learning Outcomes	164

“Tales of Peso da Régua: The Enigma of the Ancient Vines” Connection between Peso da Régua and Bento Gonçalves through an Immersive Experience in Cibricity 170

## **Special Track 2: Navigating Grand Challenges: Immersive Learning & Global Solutions (iLRNGrandChallenges)**

---

Immersive Simulations for Skill Learning: An Interactive Workshop 176

## **Special Track 3: Immersive Technologies, XR and AI for Education (XRAI4Edu)**

---

Ethics in Immersion: XR and the Synthetic Data Dance Revolution 180

Studio Xplorer: A VR Learning Tool for XR Onboarding 185

Augmenting the Learning Experience: The ALEX Framework from Affordances to Implementation 187

Development of XR Simulation for Geography Learning Based on LXD 189

Implementation of Virtual Reality in Teacher Training: A Case Study with VRChat and Oculus Quest 2 194

Immersive Approaches to Medieval Iberia: An Example of Effective and Accessible Integration of XR in a University Course 200

Transforming Higher Education Through Virtual Reality: Implementation, Faculty Engagement, and Pedagogical Impact 206

AI-Powered Learning Dashboard with Multimodal Metrics for Embodied Performance in XR Training Simulation 211

Content and AI Integrated Learning in Language Teaching for Enhanced AI Literacy 216

Virtual Reality Museums: Redefining Engagement and Understanding in Cultural Heritage 224

---
